Brand Identity System

Continuous Fold / Core identity and usage guide

Version 1.1 / Marketing-reviewed

October 2026

One clear system from many moving parts.

The mark turns complexity into a calm, coherent standard.

The Continuous Fold

Three planes form one disciplined structure around a clear center. A signature clean cut interrupts the fold at the upper right—an ownable gesture that represents removing noise and ambiguity. The form reflects what Data Hygienics does: organize security complexity, make risk understandable, and turn insight into practical action.

Judgment
Independent, rigorous guidance without vendor pressure.

Clarity
A direct view of where the customer stands.

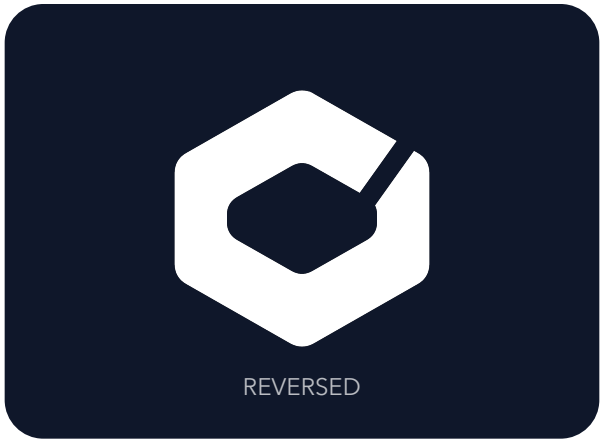

Action
Healthier digital practice and practical progress.

A standalone symbol designed to be remembered.

Use the color mark whenever the symbol appears by itself on a light background.

The upper-right clean cut is a defining feature. Preserve it in every reproduction.
